**MIX & MATCH LOWER CASE CABINET**

Whether you live small or large, the Lower Case cabinet fits in any space, because it can be put together according to your own taste. With five different components (a base, a cabinet with doors, a cabinet with both doors and compartments, and an open shelf cabinet in two sizes) you can combine endlessly. Need a TV cabinet? Put a cabinet with doors on top of a compartment cabinet. Like to make use of the height in your home? Stack several cabinets on top of each other. Even an entire wall cabinet- and play with openings, storage and display - is possible with the various components of the mix & match cabinet.

- Mix & Match lower case** in pine wood, grey, parts:
- Lower Case 4 open cabinet** 81x81x35 cm (hxwx)
- Lower Case 4 mixed cabinet** 81x81x35 cm (hxwx)

*tip* Whether it is for a tiny house or villa: cabinet Rack can be put together to fit anywhere.

**MIX & MATCH RACK CABINET**

Go for the height, the width, or keep it small: with Rack you can choose what works for you. With a base in two sizes (one high and one low) and loose shelves you can make your own combinations. From an airy small cupboard to a high bookcase and also a wall-to-wall cabinet is possible. The design is inspired by the workshop shelving unit, but one step ahead: without a cross at the back and with legs that fall very elegantly into the shelves.
